

SCOTT RODELL
CHINESE
SWORDSMANSHIP

The Yang Family Taiji Jian Tradition

Publisher: Seven Stars Books & Video · 304 pages · Notch binding · Price: \$32.95, plus shipping & handling
Date of Publication: September 2003

*"One only needs to see popular films such as 'Crouching Tiger, Hidden Dragon' to see the graceful flow of the Chinese sword arts....
Much of Tai Ji today centers mostly on only health benefits or moving in form in slow motion but with little understanding of the actual martial applications and their inherent potential. Rodell delves deeply into this highly advanced military fighting methodology far beyond mimicry of movement and unenlightened regurgitation of form. He successfully and expertly shows that this art is practical, dynamic and effective."
- Adrian Ko
President, Sword Forum International*

*"I would say this was absolutely the best, most instructive martial arts seminar I've attended, period. Scott Rodell's approach to this is superior, especially for those of us who have not had prior exposure to or who are not of his system...."
- Angus Trim, Sword Maker
on Rodell's Chinese Swordsmanship Seminar*
